DISCLOSURES	39

AIR FILTRATION SYSTEM

Breathe cleaner and fresher air, thanks to the standard air filtration system. This system filters 95 percent of air particulates, such as dust, smoke, droplets and aerosols, for a cleaner cabin.

POWER STATION

Charge up to five phones in the available reconfigurable centre console. This storage space has enough room for a 15-inch laptop and a bin for hanging file folders, plus Type-C USB charging ports.

ALL-NEW 12-INCH DIGITAL INSTRUMENT CLUSTER

The new cluster provides enhanced standard gauges, available full-screen navigation² in the cluster and the ability to select illumination colour for a more custom feel.

CLASS-EXCLUSIVE IN-FLOOR STORAGE³

Available in-floor covered storage bins can accommodate a 4-inch drop hitch. They also feature a 15-inch moulded-in ruler, two rear-seat tie-downs and removable liners for easy cleaning.

THE UCONNECT® 5 SYSTEM

OFFERS A HOST OF CONNECTED SERVICES AND FEATURES FOR EASE OF USE FOR BOTH NOVICE AND EXPERT USERS ALIKE.

UCONNECT 5 NAV⁸ RADIO is available to keep you informed and entertained. Its large, full-colour, 12-inch touchscreen integrates with your iPhone through Apple CarPlay⁴ and your smartphone with Android Auto.^{TM4} The available 4G LTE Wi-Fi Hotspot⁵ allows you to connect up to eight devices.

With Amazon Alexa Built-In⁶ for the Uconnect 5 radio in your vehicle, you can have the convenience of the Alexa features you enjoy at home, now on the go.

TOMTOM® NAVIGATION2 WITH TRAFFIC & TRAVEL CONNECTED

SERVICES. Thanks to the ability to predict traffic, formulate better routes and provide more accurate arrival times, TomTom provides the most up-to-date traffic and travel information. TomTom's connected services—including Traffic, Parking, Fuel and Weather—provide drivers with reliable, timely information to get them where they are going.

(((SiriusXM))) 360L SIRIUSXM WITH 360L7 makes it easier than ever to find and enjoy listening to over 200 channels and 10,000 hours of on-demand content. A one-year trial is included with your Ram 1500.

APPLE CARPLAY⁴ makes wireless in-vehicle iPhone use easy and safe. Your call: use the touchscreen or Siri voice commands. Available.

ANDROID AUTO⁴ wirelessly connects your Android[™] phone to access your favourite maps, media, and messaging apps like Google Maps and YouTube Music on your car display. Available.

OFF-ROAD PAGES provides real-time vehicle information while operating on offroad positions. Information includes ride height, transfer case, pitch and roll, and more. Available.

NEW, AVAILABLE TRAILER-TOW PAGES. The enhancements to the camera system on Ram Heavy Duty allow access to multiple exterior vehicle view modes that include behind-the-trailer view and blind-spot view.

RAM 1500 KEEPING YOU IN TOUCH AND CONNECTED **EVOLVE YOUR CONNECTIONS** This is user-friendly technology that delivers premium levels of entertainment, communication, comfort and convenience. Ram 1500 offers a wealth of technologies that do it all. Among them, the latest generation of the Award-Winning Uconnect® systems, built-in cellular connectivity, and personalized settings for available features like heated/ventilated seats, Keyless Enter 'n Go™ and much, much more. RAM CONNECT¹ Drive worry-free with Ram Connect¹—a premium suite of safety and convenience services that can be accessed in your vehicle or through the Ram Connect App. Includes a three-month trial. Available with Uconnect 5 multimedia centres. RAM CONNECT¹ features include: • SOS Call⁹ • Roadside Assistance Call¹⁰ Lock/Unlock Your Car¹¹ Start Your Car[™] • Remote Horn and Lights¹¹ • Vehicle Finder11 • Send & Go12 Theft Alarm Notification¹³ Stolen Vehicle Assistance¹⁴ • Family Drive Alerts15 CONNEC

EYES ON THE ROAD

This is where safety and technology intersect. The fully customizable Heads-Up Display (HUD) projects important stats like km/h, incoming calls and turn-by-turn navigation² directly on the windshield. Available.

THE AUTHORITY ON WORK AND PLAY

AND THE MILES IN BETWEEN

ACTIVE-LEVEL™ FOUR-CORNER AIR SUSPENSION SYSTEM

When equipped with the Active-Level Four-Corner Air Suspension System, the Ram 1500 can automatically or manually adjust ride height to optimize performance—with a lower ride height at highway speeds to increase aerodynamics and a higher ride height to increase ground clearance on the trail.

direction. Just twist the knob in the direction that you want the trailer to go.

of left- and right-side views of the vehicle. Select from several display modes to get a better view of the sides of the vehicle. The camera is mounted on the rear of the cab for an unobstructed view and provides a wider field of view versus a traditional mirror.

trailers/RVs can be programmed into the system.

3.6L PENTASTAR™ V6 ENGINE **WITH eTORQUE**

305 HP | 269 LB-FT

7,710-LB (3,497-KG) **MAX TOWING**

ROBUST POWER AND EXCEPTIONAL V6 FUEL ECONOMY

The facts: a high 10.2:1 compression ratio. High torque—including a supplemental 90 lb-ft of eTorque—and over a broad rpm range: nearly 90 percent of peak torque is available from 1,800 to 6,400 rpm. eTorque utilizes a belt-starter generator system, a 48-volt lithium-ion battery, regenerative braking and electronic power boost. Standard on Tradesman® and Big Horn.®

5.7L HEMI® V8 ENGINE

395 HP | 410 LB-FT

12,750-LB (5,783-KG) **MAX TOWING**

DESIGNED TO PERFORM

Few engines are as legendary as the HEMI V8. This iconic powerplant incorporates Variable Valve Timing (VVT) and a Multi-Displacement System (MDS)/FuelSaver Technology for max fuel efficiencies.

ADD THE AVAILABLE eTORQUE TECHNOLOGY WITH A SUPPLEMENTAL 130 LB-FT OF TOROUE

More than just torque, eTorque works with the standard MDS/FuelSaver Technology to deliver excellent V8 4x4 fuel economy and a V8 driving range of up to 848 km (527 mi). The eTorque electric motor creates a mild-hybrid system to help refine Stop/Start capability; it also creates a generator for the regenerative braking, converting kinetic energy to recharge the battery system.

6.2L SUPERCHARGED **HEMI V8 ENGINE**

702 HP | 650 LB-FT | 4.5 SEC

8,100-LB (3,674-KG) **MAX TOWING**

THE MOST POWERFUL FACTORY-INSTALLED ENGINE EVER IN A **HALF-TONNE TRUCK³**

Only available on the Ram 1500 TRX, the legendary 6.2L Supercharged HEMI V8 engine ensures this monster can charge from 0-60 mph in just 4.5 seconds. The supercharger provides near-instantaneous torque, has a maximum speed of 14,600 rpm and is engineered to withstand 1,595 psi—or the equivalent of nearly 9,072 kg (20,000 lb) of force.

LIKE A DOME OF PROTECTION

DRIVER-ASSISTED SAFETY FEATURES

TRAILER SWAY CONTROL (TSC)

Sensors in the vehicle recognize an excessively swaying trailer and will take the appropriate actions to attempt to stop the sway. The system will activate automatically once excessive trailer movement is recognized.

BLIND-SPOT MONITORING (BSM) WITH REAR CROSS-PATH AND TRAILER DETECTION¹⁸

This available system scans the blind-spot zones beside and behind the vehicle to help ensure trailer safety during manoeuvring while automatically sensing and accounting for the length of the trailer.

Properly secure all cargo. Always tow within the vehicle's capacity.

LANE DEPARTURE WARNING PLUS¹⁸

To prevent drifting, the available Lane Departure Warning Plus System¹⁸ keeps you in your lane by warning you visually and adjusting your steering when the system detects lane drift.

SELEC-SPEED® CONTROL

Standard with the 8-speed automatic transmission, the system manages vehicle speed in 4-LO while traversing off-road terrain without requiring throttle or brake input, allowing the driver to focus on steering. A button on the dash can be adjusted from 0.6-5 mph by using the AutoStick shift control or steering wheel-mounted paddle shifters.

ADAPTIVE CRUISE CONTROL WITH STOP (ACC STOP)18

Maintains a driver-selected set distance from vehicles in the lane ahead. When slower traffic is detected, Ram 1500 automatically adjusts its speed all the way down to 0 km/h, even with a trailer attached. Available.

FORWARD COLLISION WARNING WITH ACTIVE BRAKING¹⁸

Notifies the driver when the vehicle gets too close to a preceding vehicle. If the driver isn't braking enough, Pedestrian Automatic Emergency Braking¹⁹ automatically takes over, dramatically increasing braking when over 50 km/h (31 mph) and even helping to come to a full stop under 50 km/h (31 mph). The system also works with attached trailers and will engage the trailer brakes. Available.

PEDESTRIAN AUTOMATIC EMERGENCY BRAKING (PAEB)¹⁹

This smart system uses information from forward sensors to detect a pedestrian in the vehicle's path. If a collision with a pedestrian appears imminent, PAEB¹⁹ will help provide automatic braking if the driver has not acted to avoid a crash.

Parallel and Perpendicular Park Assist¹⁸ provides active guidance when parking. The guidance system directs you to engage the gear position, brake and accelerator while it automatically controls steering. Available.

GUIDED PARKING

Learn more at RAMTRUCK.CA

AIR BAG²⁰ TECHNOLOGY

Occupants are protected with advanced multistage front air bags²⁰ supplemental front-seat sidemounted air bags²⁰ and side-curtain air bags²⁰

ELECTRONIC PARKING BRAKE

Multifunctional, it features five operational modes, including Safe Mode and Drive-Away Release.

MASSIVE BRAKES

Front and back, Ram 1500 standard rotors measure up—and they're the Largest Brakes in the Class: nearly 378 mm (15 in) in diameter.3

SIDE-IMPACT DOOR BEAMS

Built into every Ram 1500, they reinforce protection against side impacts.

CAPABILITY BEGINS WITH

PRECISION ENGINEERING

CLASS-EXCLUSIVE AIR SUSPENSION TECHNOLOGY³

The Active-Level™ Four-Corner Air Suspension System is ideal for towing and features the bed-lowering Hitch Assist. Available.

SMART FRONT AND REAR SUSPENSION

What works: a heavy-duty front stabilizer bar and standard link coil rear suspension.

TOUGH STEEL FRAME

The frame takes the concept of durability to extremes. 98 percent of the steel used in the frame is high-strength steel.

UNIQUE SUSPENSION

The five-link, progressive-rate coil spring rear suspension is 18 kg (40 lb) lighter than leaf springs for better articulation and help with load levelling.

MAKE EVERY JOB EASIER

MULTIFUNCTION TAILGATE

It's tradition with a twist. This is the tailgate that delivers split-door flexibility. The 60/40-split, swing-away doors give quick access to the cargo bed without having to lean over a traditional tailgate—even while trailering. When the job calls for it, the multifunction tailgate provides a traditional tailgate that easily handles up to 907 kg (2,000 lb). Available.

SHEETS FIT

The RamBox® Cargo Management System offers extra storage, while the bed still accommodates standard 4x8-foot sheets of building materials. Available.

POWER-RELEASE TAILGATE

The available power-release tailgate feature lets you open the standard damped tailgate with the push of a button on the overhead console or from the key fob.

Controlled by a switch or activated when the unlock button on the key fob is pushed. Available.

IN-BED LED LIGHTING

BED UTILITY GROUP

Offers a bed divider, a cargo rail system with four adjustable tie-down loops and a deployable bed step. Includes spray-in bedliner on select models. Available.

STEEL DEPLOYABLE BED STEP

Foot-controlled for use or to tuck it back under the bed. Available.

DRAINABLE STORAGE

LEAD THE PACK

There's no denying the power that comes from the 702-horsepower, 650-lb-ft-of-torque 6.2L Supercharged HEMI® V8 engine, but that's just part of the performance story. TRX was designed to be the ultimate high-performance, sandstorming, full-size pickup. Paired with a TorqueFlite® 8-speed automatic transmission, TRX delivers a 4.5-second 0-60-mph time and a top track speed of 190 km/h (118 mph). The performance hood boasts a functional air intake and two 12x8-inch air filters. Floor it over to **RAMTRUCK.CA** for more.

*Information subject to change. All weights are in kg (lb). Please visit www.rambodybuilder.com for full specifications. Payload and Max Trailer Weight sare ESTIMATED values. Payload and Max Trailer Weight values are rounded to the nearest 4.5 kg (10 lb). Payload = GVWR — Base Weight. Trailer Weight Rating and Tow Vehicle Trailering Weight are calculated as specified in SAE J20807. Passenger Weight = 136 kg (300 lb). Options Weight is option content above 33 percent of sales volume. Trailer equipment weight = Class IV hitch receiver is 5 kg (11.1 lb) (if not already included in options weight). Trailer Hitch is 4.5 kg (10 lb) if TWR is less than or equal to 2,268 kg (5,000 lb) and 29 kg (65 lb) if TWR is greater than 2,268 kg (5,000 lb). Payload and Trailer Weight Rating are mutually exclusive. GAWRs, GVWRs and GCWRs should never be exceeded. The recommended tongue weight for a conventional hitch is 10 percent of the gross trailer weight. The maximum tongue weight for Class IV hitch receiver is limited to 499 kg (1,100 lb). Weight-Distributing Hitch is recommended for trailers over 2,268 kg (5,000 lb).
